

Call for a demonstration

Come on **24th February 2018** to the colourful „**Hasi bleibt- Freiräume verteidigen-demonstration**“ (“Hasi stays-Let’s defend free spaces”-demonstration)

and invite all your friends and the whole family as well!

Beginning: **15:00 o’ clock**

Meeting point: **Marktplatz Halle (Saale)**

On 5th January 2016, activists were squatting a building in Hafenstr. 7, which has been empty for 10 years. Within two years it developed to a sub-cultural centre in Halle as a permanent space without racism,

facism, sexism, homophobia or antisemitism.

Educational events and construction days take place in a continuously self-organised and uncommercial context. Where empty space became a ruin gradually, it is nowadays used as meeting point also for families and refugees, you can find sports groups, do-it-yourself-workshops, a theatre group with amphitheatre, people to cook together, a free shop, a big garden, small library and much more.

On 31st January 2018, the contract for using the space expired – the project is in threat of eviction which would mean the end for all activities. The alternative places which were offered to Hasi for relocation are not an option because of several reasons.

The Hafenstr. 7 is getting more and more interesting for investors - the Hasi should be replaced by luxury flats in concrete blocks. This can be prevented still !

We demand the land lord (HWG) to stop any eviction plans and enable the continuation of a diverse volunteer work in Hasi.

We demand that the fractions of the city council consent to selling the house to the supporting association for not losing this benefit for the city of Halle.

We demand a participatory and sustainable municipal policy which follows the needs of citizens instead of the companies and their profit interest.

We solidarise with all who fight for **a city for everybody!** We solidarise with all who fight against increases in rent, actions of eviction and displacement in the urban space !

Come with us to Marktplatz Halle (Saale) on 24th February 2018 and shout out loudly, colourful and determined: „HASI BLEIBT ! “ (Hasi stays)

Please consider: Do not bring flags of political parties along- this is not a pre-election campaign._
